

Trevor Nicholson

Property Consultant to Schools and Universities

Masterplanning Educational Estates

Independent, cost-neutral advice for optimum value on new buildings and sports facilities

trevornicholson.co.uk

- Stakeholder Consultation
- Professional Team Appointment
- Design Brief
- Planning Permission Scope
- Contractor Management

Schools and Universities are constantly improving their facilities to offer a higher standard of education, but who is expected to run the building projects to optimum value without a conflict of interest?

Do Bursars and Property Managers have the time, expertise and accountability to discuss design concept with multiple stakeholders, appoint and manage the professional team and negotiate Contractor price?

I offer independent cost-neutral advice from initial concept to completion of any new-build project on campus.
