# Ensure your school is in financial control

Our market leading school finance solution, passFINANCE, has been tried and tested by hundreds of schools, some of which have been WCBS customers for more than 35 years.

passFINANCE has been designed solely for independent and international schools. It comprises an array of modules to cover all the needs of the Bursary, from complex payment relationships catered for in Billing, through to HMRC tested and recognised Payroll which incorporates the unique requirements of the education sector.

All modules work seamlessly together to give one single view of your school's finances, reducing the errors caused by duplication of data entries and balancing multiple systems, and saving you time, too.
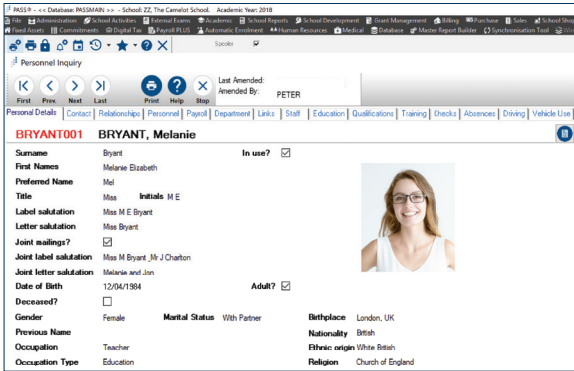

Making outstanding software for managing your school is what we're good at, and we'll provide the platform and support you need for more efficient and effective financial control.

WCBS

Standalone or integrate

passFINANCE will be the engine at the centre of your school's finance department, whether you choose to run it as a single solution, or to integrate with other EdTech products - we have many of the independent schools' award-winning providers on board as our partners.

WCBS·PRS   WCBS ePAYSLIPS

To further expand the use of the quality data captured with your passFINANCE modules, we offer two additonal products.

Integrating WCBS PRS centralises your purchasing activity. You gain clear visibility of your school's outgoings and understand how to keep costs down with simple dashboards.

Using a simple transfer routine, WCBS ePAYSLIPS integrates with passFINANCE Payroll, and staff easily access their payslips online by logging in wherever they are.

passFINANCE Modules

- Billing Ledger
- Grant Management
- Purchase Ledger
- Nominal Ledger
- Payroll
- Commitment Accounting
- HR
- Sales Ledger
- School Shop

What our customers say...

"We love passFINANCE – it has been the best transition ever. The best bit: review date and admissions checks as well as being able to sort your front screen according to the place status."

"We are constantly finding out things that we can do through passFINANCE to make the school run more smoothly. The support from the helpline is very good."

"We are very happy with the software and support especially after making do with our old creaking software for the last few years."

"passFINANCE continues to run well for us and is the easiest of the systems that I manage on a daily basis as it requires so little intervention and the move to RTI went very smoothly. We are very satisfied and the support that WCBS give us."

"passFINANCE is a very satisfactory solution – it's reliable and does the job. On a day-to-day basis, it has certainly made us more efficient as a bursary."
