Digital education? Our experience helps you move forward

“Where do we start? Which operating system should we choose? Which devices are suitable for this educational institution? How do we make it affordable for everyone? And what if a device breaks down? What about communication with parents?”

Digital education usually takes quite some time to organise, and often raises many questions. Class Technology Solutions makes your choices **easy4u**.

Our services are focused challenging and overcoming the digital divide!

Devices in the classroom: This is how we organise it!

1. Communication

- Attendance at Open morning/evening to introduce scheme to parents
- Presentation during an information evening/webinar, including demo equipment
- School-specific order leaflet and webshop
- Reminder emails to parents

2. Ordering

- Devices tailored for educational use
- Renting, purchase
- Contract is directly with the parents, teachers or educational institution
- No credit checks
- Includes school device security protocols
- Creation of a parent and student portal

5. Service, damage and theft cover

- A replacement device in case of repair or damage
- No labour, repair or transport costs
- Service organised for the school
- Includes damage and theft cover with a limited excess

4. Delivery

- Delivery in the name of the student or teacher.
- The student receives a collection note by email
 - The student signs digitally and receives a confirmation email
 - The device is ready to use!
 - Assured, prompt delivery

3. Configuration

The device are configured specifically for each student or teacher.

- Imaging / registration in school specific domain / MDM
- Fully charged
- Provided with personalised service tag
- Equipped with a solid moisture-proof protective cover
- Provision of Intune data

Subscription

Convenience and Security

On what terms?

- Purchase or rental directly with parents of the students, teachers or educational institution
- For renting, the user or renter pays a deposit for the first 4 months
- Service, damage and theft coverage is always included
- Payment for renting is done in advance per month / per year by Direct Debit without credit check
- Possibility to take over the device at the end of the rental period

Early termination?

This is possible if the student leaves the educational institution. The early termination costs are equal to the deposit amount.
