

**We create learning environments that
inspire and enhance academic performance.**

**PARTNERED WITH THE UK'S TOP EDUCATIONAL
FURNITURE MANUFACTURERS.**

WE MAXIMISE THE EFFECTIVENESS OF YOUR BUDGET

Here at Cost Cutters UK, we understand that the **quality of the physical learning environment** goes hand in hand with academic performance. With **over 30 years' experience** within the educational furnishing industry, we do **not only supply furniture**. Instead, we provide **knowledge** and **expertise** through our all-round **project managed solutions**, creating **aspirational spaces** where students are able **to learn and thrive**.

Renovation Projects

Our renovation projects can be designed for students of all ages from nurseries through to universities, with function, durability and well-being in mind.

Site Visits

Getting to know customers and building relationships, is a key part of our design process. Providing free and informal site visits, allows us to gain a better understanding of the scope of your project and audit your current learning environment furniture. This ensures that we create the best setting for your requirements and budget.

Bespoke Design Service

Our professional design and planning team ensure your vision comes together perfectly, offering 2D space planning and realistic 3D computer generated images as part of our service. As a company, Cost Cutters UK are committed to maximising your budget potential with quality, durable and innovative products. Our combination of specialist product knowledge and visionary design ensures that your educational settings are fit for purpose, practical, facilitate learning and are safety compliant.

Project Management

We understand managing projects within an educational setting can be difficult for educators to manage whilst still doing their own job. That is why we have a dedicated project management team that work alongside our customers, from the initial design consultation through until fruition. On hand to offer advice, answer questions and liaise with contractors, our team work within your parameters to ensure the project is seamless and hassle free.

Effectively Maximising Budgets

Making the most of your allocated budgets is essential within all educational settings. Having relationships with a range of UK manufacturers ensures that we can remain competitive and source quality, reputable products. Working to your parameters we create spaces that maximise your budget whilst encompassing all your requirements and more for a truly enjoyable and functioning environment.

Laboratories and ICT Suites

Every learning environment is important, but special consideration should be given to the design of teaching spaces, school laboratories and ICT suites. Understanding that an ergonomic environment enhances learning and performance ensures that you get the most from your investment.

Our modern, safety compliant designs have a beneficial impact on teachers and their student's learning, giving everyone a positive environment to learn and work in.

Canteen, Common Rooms and Breakout Areas

Through years of experience, our dining rooms, breakout areas and common room designs encourage synergy and friendship in a practical multifunctional design. We can maximise the limited space schools and colleges have by creating flexible solutions that fit your requirements. Our breakout areas provide spaces where the learning environment can be brought outside the classroom while students socialise. Whereas, our communal dining areas are hardwearing and suitable for a high turnover of users.

Reception and Administrative Areas

Create stunning first impressions for prospective parents and a welcoming environment for students with our practical reception designs. Coordinate your administrative suites and office spaces demonstrating a consistent design throughout. From noticeboards, desks and chairs to bespoke reception counters, interactive display boards and modular seating, we provide a complete design solution.

Libraries and Classrooms

Classrooms and libraries are key spaces within schools and need to work differently in each unique environment. At Cost Cutters UK, we understand the different aspects required to bring a library space or teaching area together. All our designs are practical, engaging, ergonomically designed and interactive for pupils within the school environment to discover learning and flourish.

We offer a completely free and comprehensive site survey and space planning service for our classroom and library furniture projects. So, whether you have a detailed idea of what you would like, or need inspiration, we can provide a solution which is right for you.

Multifunctional Spaces

Making the most of the space you have is our speciality. Flexible, multifunctional spaces are a great way for schools to be efficient and maximise their investment. Finding the best storage solution for your educational requirements is essential, which is why we have an extensive range of lockers for all styles and settings. Whether your space needs to be suitable for staging performances, holding meetings, showcasing notices or suitable for storing essentials compactly, we are committed to working with our customers to ensure the best solution.

Outdoor Learning

Understanding the curriculum and its focus on outdoor learning, our experienced team can incorporate all required standards and Ofsted targets. Whatever the challenge, we provide a unique solution. Your ideas will come to life with our detailed project planning service, 3D designs of your playground can be used when delivering proposals to key decision makers.

Our installation team carry out all the work ensuring minimal disruption and before you know it you will have a brand-new playground designed and built just for you.
