- Retail
- Healthcare
- Business & industry
- Leisure
- Sport

what makes us different ?

Our design & manufacturing service is fully 'In-house' - guaranteeing that your project is managed at every stage by one of our team and that our core values of quality & client satisfaction are not compromised by the use of third party sub-contractors.

The 'In-house' management of your project means that creative edge are uniquely cost-effective allowing us to pass that saving onto our clients.

why Creative Edge

We are a team with an expansive knowledge base with over 25 years of experience over a wide range of commercial sectors.

We take an individual approach to every project, ensuring that your brief is transformed into a bespoke design solution, a comprehensive manufacturing schedule and a carefully planned fit-out.

Whether it be small projects or large design & build corporate roll-outs, we pride ourselves on providing intelligent cost-effective solutions to your brief and helping you bring your initial concepts and ideas to life.

Manufacture & Fabrication

Our skilled fabrication teams are central to every stage of your project as it progresses from conception to delivery.

Working at our brand new workshop and design studio, our production team are supported by significant investment in the latest tools & equipment, including CNC capability.

Build

Once project / build as been approved and ready to start on site the projects are handed over to our dedicated site managers to program the works and complete all phases of the project.

Our team cover all aspects of interior fit-out works to ensure projects are run on budget and follow a detailed program and complete on time.

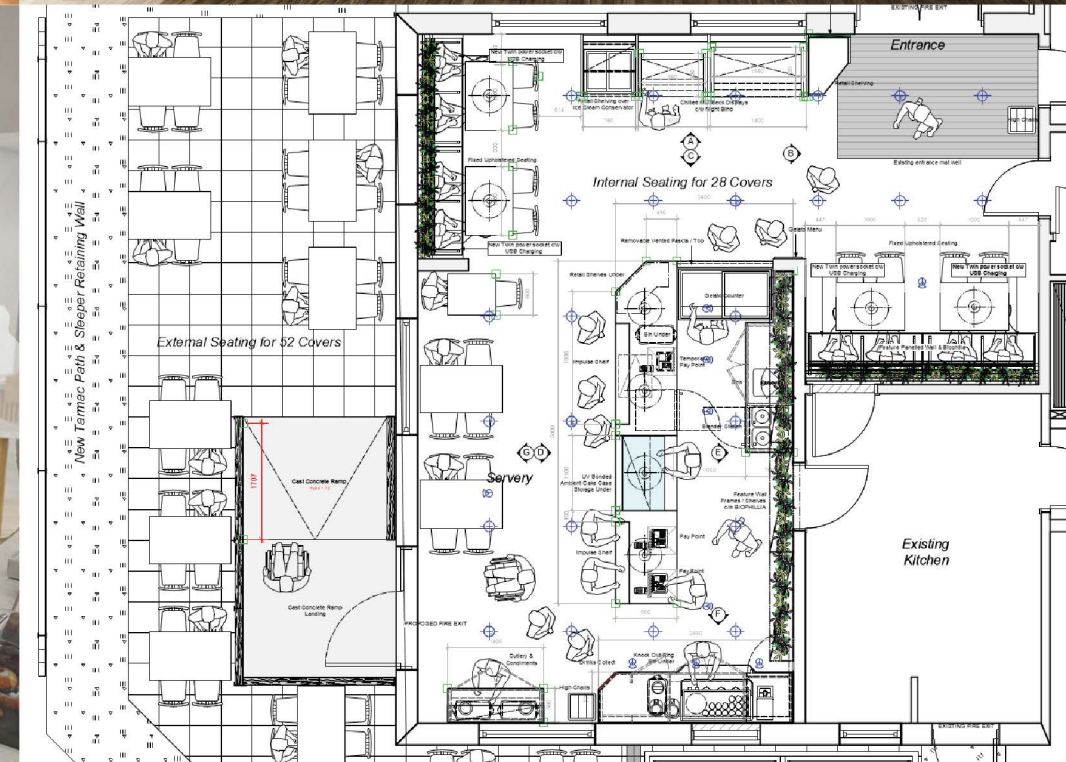

Design

Creativity, attention to detail and open mindedness is key to the way we approach your design brief.

We pride ourselves in our ability and willingness to take on any challenge or element of a project that others may shy away from.

Our designers use cutting edge CAD software that allows us to design & model every technical detail in 3D, this ensures that potential issues are removed early during the design stage.

We can also provide digital visuals and walkthroughs of your project which allows you & your team to fully understand what is proposed and therefore be confident in what will be handed over upon completion.

Thank you
